WAKEFIELD'S

WESTERN FARMER'S

ALMANAC

FOR THE YEAR

1879.

PUBLISHED AND PRINTED BY

DR. C. WAKEFIELD & CO.,

PROPRIETORS WAKEFIELD'S MEDICINES,

BLOOMINGTON, - ILLINOIS.

ECLIPSES.

In the year 1879, there will be three eclipses; two of the Sun and one of the Moon.

1st. An annual Eclipse of the Sun, Jan 22nd.

2nd. An annual Eclipse of the Sun, July 19, both invisible in the United States.

3rd. A partial Eclipse of the Moon, Dec. 28th. Invisible, occurring at mid-day.

Signs of the Zodiac, or Human Anatomy.

Aries, Head.

Pisces, Feet.

Fixed and Movable Festivals.

Dominical Letter,	E	1st Sun. in Lent,	Mar. 2

WAKEFIELD'S FAMILY MEDICINES

HAVE now been before the public thirty-two years. They are extensively used over the entire Western States, and are pronounced by all who use them to be the most reliable and useful remedies before the public. They are especially adapted to the diseases of the west, Heads of families who have relied on them for years, say they seldom require the aid of a physician; that their doctor bills used to average about \$100 per year, now they pay from five to ten dollars a year for these medicines, and always keep them in the house.

There is such a large variety of articles among our list, that some one can be selected to meet the symptoms of almost any attack, and by studying the directions and the succeeding pages of this book an accurate selection can be made.

With prompt attention and a proper treatment with these medicines, all attacks of disease can be quickly thrown off, and a doctor may but seldom be required to visit your family. It is the neglected case that becomes critical and may require the watchful care of a skillful physician, and sometimes results unfavorably.

Time, money, and much suffering are generally saved by an early use of our LIVER PILLS, COUGH SYRUP, or BLACKBERRY BALSAM.

Business letters from our agents often wind up with a casual remark like the following: "Your medicines give perfect satisfaction." "Your medicines are well liked here." "Your medicines are standard goods here." We present a few of these quotations:

R. G. Glover, Lima, Neb. "Your medicines give good satisfaction. Your Cough Syrup is the best Cough medicine I have for sale."

A. J. Whittenberger, Claypool Ind. "The people like your medicines, and regard them the best in the market."

J. W. Allen & Son, Sappa, Kan. "We take pleasure in selling your medicines, for they are just what they are represented to be."

John B. Slusser, Auburn. Kan. "I have used and thoroughly tested your medicines and am satisfied there is none better."

CATALOGUE OF WAKEFIELD'S FAMILY MEDICINES

Ague & Fever Specific.—This is the most certain and speedy remedy before the public for the cure of sudden Fevers of any kind, Ague and Fever, Dumb Ague, chills, and all periodic diseases. It can be relied on as an effectual anti-periodic. It was used with great success in the early settlement of the west, when fevers were more common and malignant than now.

Cough Syrup.—The real value of this remedy cannot be computed. Its use is so often required, and it relieves so many serious cases of disease caused by the excretory passages being obstructed as in Colds Lung Fever, and all diseases of an inflammatory nature. It is, also, used with great success in Measles, Whooping Cough, Spotted Fever, and Consumption.

Its use should be continued until the system is well relaxed and the pulse softened, then follow with small doses of the FEVER SPECIFIC.

Blackberry Balsam.—This article has not its equal before the public for the cure of Diarrhea, Cholera morbus, and all relaxed conditions of the bowels. It is also very effectual in its relief of Summer Complaint with children. No family should be without it in the house.

Liver Pills.—This is a mild anti-bilious remedy, and so mild that it can be used with safety for children and delicate females in all conditions. These pills are composed of podophylin and other vegetable hepatic remedies combined with a sufficient amount of mild tonic to prevent them leaving any prostrating effect on the patient. They often correct the stomach and liver without producing much visible effect on the bowels.

Wine Bitters.—This is no beverage, but a genuine tonic remedy for Weak Stomach, Loss of Appetite, Torpid Liver, Torpid Circulation, General Debility, Headache, &c. It is also much used as a preventative during spring and heat of summer; and to strengthen up after having been reduced by sickness.

Pain Cure.—This is an exceedingly stimulating and warming medicine, for external or internal use. It eases violent pain almost instantaneously by quieting the nerves and arousing the part to a healthy circulation. It is used for Neuralgia, Rheumatism, and nearly all kinds of pain or lameness.

WAKEFIELD'S FAMILY MEDICINES.--continued.

Golden Ointment is highly esteemed for its immediate relief and cure of Burns, Piles, Felons, Corns, Sore Throat, Diphtheria, Fever Sores, Chaps, Neuralgia, Scald Head, Lameness, Cold skin, etc.

Egyptian Liniment has a good reputation for the cure of nearly all the diseases about horses and cattle, as Rheumatism, Swellings and other diseases about human beings.

Worm Destroyer is a nice remedy for worms in children. It is prepared in Lozenges, and is quite pleasant to take. A majority of children will eat them for candy.

Egyptian Salve.—This is a cleansing and healing remedy for Sores, Cracks, Cuts, Frosted parts, and Burns. It cures Corns and is an excellent adhesive plaster for dressing Cuts and Flesh Wounds.

Nerve & Bone Liniment is mild, penetrating, softening and very healing. It is hard to excel for healing wounds on horses or persons.

Eye Salve.—This is a genuine article for Sore Eyes, Old Sores, and all soft or watery sores and pimples.

Brown's Rat Killer is a noted article for the destruction of Rats, Mice, Roaches and Ants. It is now put up in bottles and will keep in perfect condition.

What Correspondents write.

T. A. Marshall, South West City, Mo.—“Many of your medicines are as staple as wheat and corn. We think we can not do without them. I have done the most of my doctoring with them for the last five years.”

O. F. Young, Robinson Creek, Ill.—“Your medicines are steadily gaining in popularity here, as my enclosed returns show.”

G. C. Brand, Taber, Iowa,—“I have never heard of a single complaint of your medicines. They give general satisfaction.”

T. E. Mayes, Dallas City, Ill.—“I notice that those who buy your medicine once, are sure to buy again.”

C. P. Archfield, Radical City, Kan.—“Your medicines take the lead of all others in sales here, Your Ague and Fever Specific never fails of curing the chills, and all give satisfaction.”

Use Cough Syrup.

Not Particular.

"Pleas sur, what's the fare from Dublin to Glasgow?" inquired a son of the Emerald Isle one day of the clerk of a shipping office. "Eighteen shillings," replied the other. "An' what d'ye charge for a pig or a cow?" "Oh, 1s. 6d. for a pig, and 3s for a cow." "Well," replied Pat, "book me for a pig."

Do not suffer with *Pain, Lameness, or Neuralgia*, but use Wakefield's Pain Cure and receive immediate relief.

"Do you love me still, John?" whispered a sensitive wife to her husband. "Of course I do—the stiller the better," answered the stupid husband.

An old author quaintly remarks: "Avoid argument with ladies. In spinning yarns with *silks* and *satins*, a man is sure to get worsted and twisted. And when a man is worsted and twisted, he may consider himself wound up.

The timely use of Wakefield's Cough Syrup has saved thousands of persons from Lung Fever, Typhoid Fever and Consumption.

An Iowa schoolmaster whipped the girl he was engaged to, she then sued him for breach of promise.

Wakefield's Cough Syrup!

**Treatment of Diseases that are
readily Cured by it !!**

A Common Cold. If the attack is severe, commence with a dose of LIVER PILLS, followed soon by large and frequent doses of COUGH SYRUP; soak the feet in water as warm as you can bear it; next, hastily spat with your hand the naked skin over the whole body and limbs, until the skin stings sharply. This will assist in arousing the action on the surface; then cover up warmly in bed and there remain until you get a good reaction. If the skin continues dry sponge it while under the clothes with warm water. After sweating has commenced, continue the Cough Syrup in smaller doses for some time. This treatment will throw off a cold and thus prevent it from developing Lung Fever, or other disease. Wakefield's Cough Syrup thus freely administered, soon relaxes the system so fully that the obstructed tubes readily free themselves of the engorgement, and the circulation again becomes complete. It is better to abstain from food, except hot sweating teas—and perhaps well roasted onions, which, if eaten hot, are very sweating,—until you get a good reaction.

Influenza is simply a cold prevailing quite universally in a community.

Lung Fever, Winter Fever, and Pneumonia are terms applied to an inflammation of the lungs, and is generally the result of a deep-seated and much neglected cold. The engorgements in the excretory tubes and small blood vessels being general, more effete matter is thrown upon the lungs than they can conveniently dispose of, which causes this morbid inflammation. It often commences with a slight chill, followed by slow fever, with dull pain in the chest, difficult breathing, full hard pulse, with a dry and deeply coated tongue.

Treatment.—Commence with two of Wakefield's LIVER PILLS; soak the feet in hot water; give large and frequent doses of COUGH SYRUP; and keep the skin soft by sponging under the clothes with warm water. If there is any pain in the chest, apply a large thick wet compress, and change often. Cough Syrup given in alternate doses with the Specific, and the wet applications, both tend to keep the Specific from exciting the circulation, which is very important in lung fever. Persevere in this treatment until the pulse is softened and perspiration is induced, then give more frequent doses of Fever Specific, which will aid the vital forces in gaining a healthy action.

For wakefulness, take a large dose of Wakefield's Cough Syrup on going to bed, or in the night.

Scrapings.

"Reaching after the unattainable"—A man feeling up under the back of his vest for a parted suspender.

"I livd in Ida's eyes," said an affected dandy in Colman's hearing. "I dont wonder at," replied George, as I noticed she had a sty in them when I saw her last."

The infirmity of age with slow circulation is greatly relieved by the use of Wakefield's Wine Bitters.

A little boy who wore striped stockings was asked by a man on the street why he made barber poles of his legs. His pert reply was. "Well, ain't I a little shaver?"

The longest sentence on record was constructed by a Western judge. He sentenced a man for life, and afterwards slapped two more years to the sentence because the prisoner called him "no gentleman."

Every family that has not tried the Golden Ointment for burns, felons, old sores, piles, neuralgia in the neck or head should do so the next time required, and save much suffering.

A good resolution is a good umbrella. Because you generally put it up when you are dry?

Use your judgment in your efforts, and induce general perspiration as soon as you can, and with the least nervous disturbance to the patient; then increase the doses of the Fever Specific, to sustain the forces and complete the curative process. Observe well the above general treatment, for it is very successful. Some physicians, instead of relaxing the engorged organs, give freely of morphine and opiates which bind the engorged organs the more strongly. Give the patient food judiciously when the appetite is ready to receive it. Rubbing the surface in a magnetic way is of considerable help in the treatment of this disease, as it aids greatly in the support of the prostrated nervous system.

Facilitate Perspiration.—In addition to the above treatment, in cases of more severe engorgement or local inflammation in any part of the body, take two pieces of thick or blanket flannel, large enough to wrap around each limb from above the knee down to cover the foot; wring these lightly out of soft water as hot as you can and apply as hot as the patient can bear it; then quickly apply dry flannel blankets around to retain the heat. Keep the water hot and after fifteen minutes re-wet the cloths as before; after fifteen minutes make the third application. When the last application gets cool take off the cloths, sponge hastily with cool water, wipe dry with a coarse towel; then with the naked hands, and cover up warm in dry clothes or in bed. After a few hours, if relief is not fully obtained, repeat the process. If performed well it will produce perspiration and a much better reaction than simply soaking the feet, and is useful in all local obstructions, torpid conditions and cold limbs. It thaws out the congested blood and improves its circulation in the limbs.

Bronchitis should be treated much the same as for common cold.

Croup is an inflammatory condition of the Larynx or the Trachea of the throat, and attended with a peculiar hoarseness. It is sometimes spasmodic and its worst symptoms are in the night.

Treatment.—Give the COUGH SYRUP in table-spoonful doses often, until you produce nausea, then lessen the size of the dose. Put the feet in hot water to invite the blood downward. Steep smartweed in vinegar and apply hot to the throat and change often. If smartweed is not at hand use jimson, lobelia, or hops; keep the patient warm and quiet for many hours after the violent symptoms disappear. Light spitting on the throat and continued for half an hour, often arouses action and loosens out the throat as soon as the herb poultice.

Establishing the Rules.

Discerning child (who has heard some remarks by papa)—Are you our new nurse? Nurse—Yes dear. Child—Well, then, I'm one of those boys that can only be managed by kindness; so you'd better get some sponge cakes and oranges at once.

Local disease of the lungs can always be avoided by a thorough use of the Cough-Syrup.

An old gentleman in Virginia bought a residence near the burying ground so as to have quiet neighbors, who would mind their own business.

What is the difference between a hill and a pill. One is hard to get up and the other hard to get down.

It never fails.—That is what has been said of Wakefield's Ague and Fever Specific for thirty years past.

Solomon's temple stood 424 years, but it is hard to make our children believe in the glory of a structure that don't have a single cellar door to slide down on.

There are no weeds that wilt so quick as the widowers.

A Connecticut Man advertises himself as a "temperance boot-maker. His work can hardly be water-proof.

Whooping Cough.—This disease is greatly moderated and soon terminated by a proper use of Wakefield's COUGH SYRUP. Each day, about the time of the greatest paroxysms of coughing, give several doses in rapid succession until you get the system considerably relaxed; also spat the back moderately between the shoulders three times a day, and then apply Wakefield's GOLDEN OINTMENT.

Measles.—When the fever is on give freely of the COUGH SYRUP, to get the system relaxed, and keep the skin continually moist by frequent sponging under the bed clothes. This is all that is generally required. If the Measles do not come out in proper time, give a few teaspoonful doses of FEVER SPECIFIC, and a few doses after they are out will assist to keep them from again striking in.

Scarlet Fever.—This disease comes on like Measles.

Treatment.—Use the COUGH SYRUP in large and frequent doses to produce relaxation, and a tea-spoonful dose of FEVER SPECIFIC three times a day; soak the feet in hot water; make applications to the throat as prescribed for Croup.

Consumption.—This much dreaded disease in its early stages is readily cured by a free and persistent use of the COUGH SYRUP. It should be given in very large and frequent doses, the first few days, then reduce the dose and give teaspoonful doses of FEVER SPECIFIC between the doses of Cough Syrup, from four to six times a day. Rub the breast and back thoroughly, twice a day, with GOLDEN OINTMENT. Eat meat, eggs, and nourishing food, but not too much, and keep the bowels open by the most gentle means. Prunes cooked in Senna tea and eaten for breakfast each day is the mildest aperient to use.

What people say about it.

Wily Green, of Bell River, Ill., under date of June 4, 1877, writes: "I have been treated by several doctors who say I have the first stage of consumption, all to no advantage. I am now using your Cough Syrup and Liver Pills to great advantage, and believe they will cure me."

Seneca, Mo., Oct. 25, 1877

Messrs. C. Wakefield & Co., Sirs:—I have been selling your medicines for eleven years, and they have given the most universal satisfaction of any ever introduced into this part of the country. I have depended upon their use in my family and have not had to call in a doctor during the eleven years. Your Cough Syrup, Blackberry Balsam, and Liver Pills are valuable, and are all that is claimed for them. Your Fever Specific cures chronic cases of Fever & Ague that other medicines had failed on.

Yours,

H. BURSON.

Brown's Rat Killer is certain destruction to rats.

Keeping His Word.

"I told her I'd never smoke another cigar," he said, softly, "and I won't. A pipe's plenty good enough for me,"—and he gracefully drew a match over the largest part of his trousers.

A man too busy to take care of his health, is worse than a mechanic too busy to take care of his tools.

Those who prove everything by experience give unanimous testimony in favor of the great value of the Cough Syrup.

A little boy whose sprained wrist had been relieved by bathing in whiskey inquired "if papa had a sprained throat?"

"Truth lies at the bottom of a well." We have often verified this by looking down into a well and seeing Truth's honest countenance in the smooth water.

For proud flesh, watery sores, sore eyes or inflamed parts use the Eye Salve.

The old maxim, "Be chaste and you'll be happy," is contradicted point blank by a Black Hills man, who was chased ten miles recently by a party of redskins.

Wise and otherwise. If you want a thing well done, do it yourself.

"It Has No Equal."

WAKEFIELD'S

AGUE & FEVER SPECIFIC!

This remedy was invented thirty-three years ago by the celebrated DR. Z. WAKEFIELD, whose experience with the miasmatic diseases of the West has not been surpassed. He depended on the use of this medicine for his unparralleled success in his extensive practice, for many years and up to the time of his death. It has stood the test of time and is as successful as in the past. It is a sovereign remedy for all Fevers, Ague, Chills, Dumb Ague, Lung Fever, Intermittents, Periodics, and any sudden debility of the vital forces. Explicit directions accompany each bottle, which should be observed and followed with judgement. In all cases of sickness, success depends much on an intelligent and efficient nurse.

For Ague and Intermittents.—Begin with a full dose of LIVER PILLS and evacuate the bowels, then follow with the FEVER SPECIFIC. In all intermittents it is advisable to commence the Specific six or eight hours before the chill is expected, and follow its use through the time of its expected continuance. It takes less medicine when used in that way. The directions about wet applications when the fever is on should be followed, they add to the comfort of the patient, whether you are giving medicine or not, and assist the medicine in expelling the disease.

For Continued Fever.—First evacuate the bowels; then follow with the Fever Specific, and external applications, as directions prescribe, and the fever will soon yield.

Lung or Winter Fever.—Follow the same course as for bilious fever, except giving COUGH SYRUP to relax the inflammatory action; then alternate with the SPECIFIC.

Spotted Fever.—This disease attacks persons very suddenly with shifting pains; oftener in the neck and head, with much paralysis, blindness, delirium and prostration of strength.

Treatment.—Give COUGH SYRUP and FEVER SPECIFIC in alternate doses, a teaspoonful every fifteen minutes, soak the feet in hot water, spat the limbs and hips thoroughly to bring down the blood. Rub the back from the neck down, for a few minutes, apply a hot wet compress over the most painful part, then spat over that and

Golden Ointment for cuts.

Josh Billings:

He would rather be an old maid than a mother-in-law; but he didn't expect to be either.

To hear a mouse nibble in the wainscoting at midnight takes the death out of silence.

Mice fatten slowly in a church, they cannot live on religion any more than a preacher can.

Wet feet and damp weather often produces a succession of light colds, great languor and often soreness in the cords of the neck. Use the Cough Syrup promptly and keep off Typhoid Fever.

"There is no rule without an exception my son." "O yes pa, a man must always be present while being shaved."

A man in Louisiana has had four wives go off and leave him. The fifth he swopped for an old shot gun and now he has got something that won't go off.

Destroy the pests. Brown's Rat Killer is sure death on rats, mice and roaches.

A man who will work on a farm for nothing and board himself, will just about earn his wages.

It is impossible to do anything well with a flea on you, except swear; and that won't hurt the flea.

below to arouse the action of the blood through the congested part, and do all you can to get up a general perspiration and circulation. Warm sponging, hot fermentations, or a spirit vapor bath may be used at discretion.

COMMON SENSE.—Every person should study the nature of disease and consider what effect is to be accomplished by treatment, then select the proper medicines and applications and work vigorously with them. Obstructed circulation is the general cause of disease. A fever is an effort of nature to throw off the obstructions to a healthy action, and these medicines have the very properties that struggling nature requires to help it out.

NEGLECTED OPPORTUNITIES.—Do not delay prompt attention to attacks of fever, or ague, as two days of the above treatment, thoroughly executed, will set you right again, while delay may prostrate you for weeks under the care of a physician. That condition would be more profitable to the physician than agreeable to yourself.

Joseph Martin, of Livonia, Mo., says:—"Your medicines all give satisfaction. Your Fever Specific never fails to cure Fever & Ague, and is in great demand. Your Blackberry Balsam is getting very popular for flux, and summer complaint. It recommends itself, and they come to me from seven miles around for it. Your Liver Pills are, also, in great demand."

Six months later 'date, he says:—"Your medicines still hold the lead of all others in this part of the country; and never fail to do all that is claimed for them."

J. W. Fox, of Hurdford, Mo., says;—"I sold out all the Specific and Wine Bitters you left on commission, and had to buy more to supply the demand."

J. E. Sloan of Newton, Jasper Co., Ill., says:—"Your Fever Specific is in good demand. I warrant almost every bottle, and never heard of a failure or complaint."

S. W. Harper & Runison, of Hurricane, Ill., say:—"Your Fever Specific cures every case; does its own blowing, and asks the ague no odds."

E. L. Parker, of Queensville, Ind., says:—"I have been selling your medicines for six years, and have yet to hear of the least dissatisfaction with their use. Your Balsam is superior to anything of the kind ever sold."

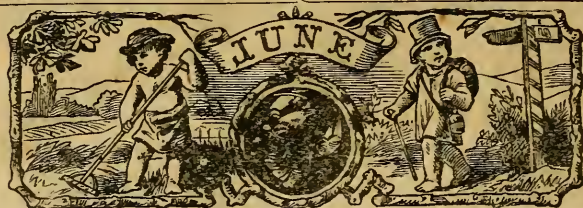

L. B. Mc Murry, Carlisle, Ark., says:—"Your medicines have been my family physician for twenty years, before moving here, and they have saved me many large doctor bills. I do not find them here; I enclose one dollar for some Pills, to be sent by mail."

S. Goodrich, Farmington, Kan., says:—"Your medicines are giving a good report, here."

Use Blackberry Balsam
for diarrhea, flux &c.

A Poser.

"Susie," said a teacher to one of her pupils, "you shouldn't make faces; You will grow up homely if you make faces." Susie looked thoughtfully in the teacher's face a few moments, and then innocently asked: "Did you make faces when you were a little girl?"

For Ague and Fever: First take a full dose of Liver Pills, follow with the Fever Specific. After it is broken up give the Wine Bitters to build up the blood.

"John, said a master to his apprentice, "you must occupy my place while I am absent," "Thank you sir," replied John, "but I'd rather sleep with the boys."

Sunday School Teacher—Who was the strongest man? Boy—Jonah: because the whale couldn't hold him after he got him down.

A rough and spongy condition of the throat and tonsils are easily cured by gargling the Blackberry Balsam three times a day.

'Now Johnney,' says grandma, "I want you to sit still as a mouse." "Mouses don't sit still, grandma."

Miss Gatling, daughter of the gun inventor, is a Washington belle. She's perfectly killing.

THESE Pills are especially required in the cure of liver complaint, biliousness, obstructions in the alimentary canal and sudden attacks generally. Three pills

are an active dose; one pill a mild dose. For liver complaint use these pills at night, twice a week, and the WINE BITTERS every day. Keep warm; take exercise in the open air; diet closely, and avoid fatigue and excitement. Swinging your weight moderately from hand rings, or violently swinging the arms back and forward several times a day, to exercise the muscles of the side, will assist to improve the action of a torpid liver.

Cleansing the Blood.—Wakefield's LIVER PILLS are one of the most effective remedies before the public for cleansing the blood. They should be used in small doses three or four times a week, at bed time, or take one pill before a light supper, every night. This will gently improve the action of the liver and digestive organs, and more pure blood will soon be formed. Adopt a scanty diet and that effect will be sooner accomplished.

Read what a Doctor says :

Scottsville, Mo. July 10, 1877.

Messrs. C. Wakefield & Co., Sirs:—Your valuable medicines are giving satisfaction here, and especially your LIVER PILLS. They are gaining a high reputation for all disorders of the stomach, bowels, or liver. Your COUGH SYRUP is not excelled by any cough remedies.

Yours, Respectfully, F. S. WRIGHT, M. D.

T. Cullen, near Waldron, Platt Co., Mo., writes under date of march 4, 1878.—"I will just state that I have used your medicines, for several years past, and find them to be the best in use. I recommend them to my friends, knowing they will always give satisfaction. I always keep your pills in my house and should not like to be without them."

John Wilcoxon, Overton, Texas, says:—"Send 2 Gross of your Liver Pills; I am out and have daily calls for them. They give good satisfaction, and are just the thing for this malarious climate."

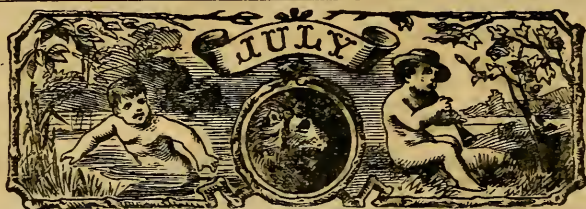

J. L. Morton, Bruce, Ill., says:—"Your Liver Pills out-sell all others, here."

Another says: "Your Liver Pills are the best in the market, and suit my trade exactly"

Golden Ointment for burns.

Say, No.

"You must cultivate decision of character, and learn to say 'No,'" said a father to his son. Soon afterward, when the father said to his son, "Chop wood," the boy said, "No," with an emphasis that showed he remembered the lesson.

The variable weather of the spring months often produces impurity of the blood and biliousness, one dose of Liver Pills followed by the use of one bottle of Wine Bitters will prepare the system for the heat of summer.

Mr. Jones—"I've got something in my pocket to give you when I go away." Child "Then the sooner you go the better."

A little boy who wore striped stockings was asked by a man on the street why he made barber-poles of his legs. His pert reply was: "Well aint I a little shaver?"

An Irishman on hearing an orator say that fortune knocks once at every man's door, remarked "when he knocked at mine I must have been out."

For nervousness, fretfulness and worms in children, use our Worm Destroyer.

It always kills a joke to say that it is funny before you tell it.

WAKEFIELD'S BLACKBERRY BALSAM

THIS is an immediate and almost never failing remedy for Cholera Morbus, Diarrhea, Cholera Infantum and all relaxed conditions of the stomach and bowels, Water-brash, and many cases of sick stomach. Also, in very small doses, for relaxed and spongy conditions of the throat.

Diarrhea and Cholera Morbus.—Give Wakefield's BLACKBERRY BALSAM in large doses and repeat in from fifteen minutes to two hours, as the violence seems to require. If the stomach is nauseated so as to reject the medicine, apply a mustard plaster over the stomach, and when it has drawn well, again give the BALSAM in smaller doses at first. If you should believe the stomach was loaded with indigested food, it would be well to give freely of warm water, and thus, induce vomiting before applying the mustard plaster. If the first dose of BALSAM is thrown up, the second or third may not be. Persevere. If there is griping pain in the stomach or bowels, apply a hot fomenting poultice. If the irritation is confined to the lower bowels with tenesmus or a bearing down sensation, give double doses of the BALSAM in an equal amount of water by injection.

In Chronic or Camp Diarrhea the treatment must be continued for some time, keeping the action of the bowels in proper check.

Blind Piles.—Give the BALSAM by injection.

Colic.—Give internally a large dose of BALSAM and apply PAIN CURE externally, or the Pain Cure may be used internally instead of the Balsam.

Summer Complaint requires the use of the BLACKBERRY BALSAM in doses sufficient to keep the bowels in check from day to day. Keep the child very passive, avoid fruit and trash, sustain the strength with nourishing food, without grease, and never overload the stomach. Pure air and cleanliness are of great importance. Sustain the vital forces, in every way possible, until the debilitating weather of the summer is past.

ALWAYS begin treatment in time, and not wait until the bowels become raw and inflamed.

Do NOT be afraid of large doses, until the bowels are checked. We never heard of any bad result from checking suddenly with this article.

THIS MEDICINE is nice for children that have eaten too much fruit, or are teething. TRY IT.

Man.

An elderly Wicklow maiden, who had suffered some disappointment, thus defines the human race: Man—a conglomerate mass of hair, tobacco smoke, confusion, conceit and boots. Woman—the waiter, perforce, on the afore-said animal.—

Painful pressure in the head often with chilliness indicates the approach of ague or a bilious attack. Without delay take a full dose of Liver Pills, and follow with a few doses of Fever Specific, and you will soon be all right again.

A shrewd old Yankee said he didn't believe there was any downright cure for laziness in a man. "But," he added, "I've known a second wife to hurry it some."

The great question.—"Does it hurt a man to hang him?" It hurts his reputation.

An Irish judge said to a condemned prisoner, "you are to be hanged and I hope it will prove a warning to you."

Pretty women for whom men kill themselves are called slay-belles.

The proof of the pudding is in using it. Every family will find daily use for the Golden Ointment.

STRENGTHENING WINE BITTERS.

This remedy is used with success for the cure of Dyspepsia, Liver Complaint, Jaundice, Periodical Bilious and Nervous Headache, Constipation, Debility from sickness, and to build up the vital forces generally.

Dyspepsia has become a prevailing disease and its symptoms are generally understood. When a person whose vital forces and digestive fluids are weak, takes an overload of food, or that which is hard to digest, these fluids do not combine with sufficient strength to produce speedy digestion. The consequence is, gasses, acids, impure and less nutritious blood are formed, the bowels become torpid and the vital forces soon suffer further depletion.

Treatment.—Strengthen the stomach and build up the vital forces with proper nutrition and outdoor air. To strengthen the stomach and invigorate the system, there is no medicine equal to Wakefield's WINE BITTERS. It should be taken as you set down to your meals and let it act with your food. Use it in such quantity as will cause a free action of the bowels each day. This will improve the appetite, strengthen the stomach and gastric juices, enable you to digest more food and build up permanent health therefrom.

The diet of a dyspeptic is of vital importance. He should never fully satisfy his appetite. By keeping his appetite a little sharp, he will keep his gastric juices strong and his blood nutritious and pure. Avoid fat meat, grease, strong coffee, strong acids, very much sugar, and everything that seems to produce gas, or inconvenience. Take but very little fluid with your meals; but rather drink at bed time or between meals. Let your supper be very light, a cup of black, or japan tea and half a slice of bread, not less than one day old, is enough to ensure refreshing sleep and a reasonable appetite for breakfast. If a meal sours on the stomach, take a less quantity at the following meals, until you learn just how much you can thoroughly digest. Use the Bitters to strengthen the stomach, until you can safely increase the quantity. Constipation of the bowels is almost sure to succeed a habitual sour stomach. Select plain nutritious food; eat very slowly and avoid all trash. Rub thoroughly, once a day, over the stomach and liver with the GOLDEN OINTMENT. A case of long standing dyspepsia requires a long continued use of the Bitters, with correct habits, to build up the wasted energies of the stomach and secretions. The bowels must be kept open and regular as possible. Taking the juice of a lemon with a little sugar, at bed time, three times a week, is of much advantage to some cases; especially when the tongue is covered with a white fur.

Use Wakefield's Liver
Pills for Liver Complaint.

Learning.

Anacharsis, the Scythian sage, being asked in what respect learned men differed from the unlearned, answered, "As the living from the dead."

Beauty without honesty is like poison kept in a box of gold.

Immensely popular.—The peculiar adaptability of Wakefield's Blackberry Balsam to the immediate cure of Diarrhea, has rendered it popular beyond competition.

A Popular clergyman in Philadelphia delivered a lecture on "Fools." The tickets to it read: "Lecture on Fools. Admit one." There was a large attendance.

A Clergyman lately addressed his female auditors as follows: "Be not proud that the blessed Lord paid your sex the distinguished compliment of appearing first to a female after the resurrection, for it was done that the glad tidings might spread the sooner."

A bad taste in the mouth indicates a disordered stomach. Use the Wine Bitters regularly, and one Liver Pill twice a week,

Love is the ladder on which we ascend towards the likeness of God.

WAKEFIELD'S

PAIN CURE

This valuable article has gained great favor with our patrons, in the cure of all deep seated pain, lameness, paralysis and local torpidity.

Best Way of Applying :—It should be rubbed in thoroughly for five or ten minutes; follow with the GOLDEN OINTMENT, which will continue the curing process for several hours. It will also keep the volatile part of the medicine from evaporating, and protect the opened pores from the atmosphere. Small doses of LIVER PILLS are, also of much advantage, in local, as well as in general diseases; as they quicken the circulation, for the time, and will carry off some of the obstructions that caused the pain. Use your judgment in the treatment with this, as with all other remedies.

Pain, Lameness, or Sprains.—Rub well with PAIN CURE and follow with the GOLDEN OINTMENT, as above described.

Rheumatism and Neuralgia.—Take a full dose of LIVER PILLS and follow with one every night; rub the affected parts fifteen minutes, with PAIN CURE, then follow with the GOLDEN OINTMENT. Do this two or three times a day and dress warm with flannel. If the affection is deep seated, spat the parts pretty thoroughly to arouse a rapid circulation of the blood after applying these remedies.

Inflammatory Rheumatism.—Keep the bowels rather active with the LIVER PILLS; bathe the painful parts freely with the PAIN CURE and OINTMENT; give internally large doses of COUGH SYRUP to relax the system and relieve the inflammatory action. Sponge the whole surface with alkali water; let the patient take the juice of a lemon, from three to four times a day. A spirit vapor bath is of much advantage. If the joints swell and are painful, apply a hot fomentation made of jimson or hops, with strong alkaline water; change every half hour, for two hours, then apply the Pain Cure frequently, covering with flannel. When you get the inflammation a little reduced, give Fever Specific in alternation with the Cough Syrup. Keep the patient cool and very quiet.

Use Golden Ointment.

A Strong Hint.

A little boy who was nearly starved by a stingy uncle (his guardian) with whom he lived, meeting a lank greyhound one day in the street, was asked by his guardian what made the dog thin. After reflecting the little fellow replied: "I suppose he lives with his uncle."

The common expression of persons who have used our Blackberry Balsam is, "It has no equal for Diarrhea and Flux."

Never relate your misfortunes to others, and never grieve over what you cannot prevent.

"Sam, why don't you talk to your master, and tell him to lay up treasures in Heaven?" "What's de use ob him laying up treasures up dar? He neber see um again."

A correspondent says: How Kellogg became as a tar in the musical world—She pitched her voice, and then stuck to it.

To prevent bilious attacks use the Wine Bitters regularly and a Liver Pill once or twice a week.

The spirit of the law is to do good, in season and out of season.

Use Golden Ointment.

WAKEFIELD'S GOLDEN OINTMENT

There are many diseases and external affections that requires a remedy that will produce a continued action for many hours, in order to effect a cure. This Ointment, by its proper consistency and medical properties, produces that effect, and for all such diseases we know of no article that we can recommend before it. It is very cleansing, quieting and healing, and is adapted to the cure of Burns, Frosted Parts, Old Sores of any kind, Sprains, Chaps, Cuts, Piles, Erysipelas, Felons, Corns, Neuralgia, Cold Limbs, Lameness or Soreness in the flesh, dry and inactive skin, Sore Throat &c.

Fever Sores and all Old putrid Sores. It is a superior remedy. For open sores, it should be applied as a plaster, and renewed once or twice a day.

Burns;—Bind it on freely and keep the air excluded.

Felon;—Apply it as a plaster, as soon as the soreness first appears, and renew every three hours. It will soon disappear. If the felon is too far advanced to be scattered, it will hasten its suppuration. If applied in time it is a sure remedy.

Piles;—This Ointment has proved to be very successful in the cure of piles. Use twice a day.

Neuralgia;—Rub the Ointment in freely, over the part affected and cover with a woolen cloth; or, if you have Pain Cure at hand, rub it on freely first, then follow with the Ointment. Take one dose of liver pills.

For Sore Throat, Diphtheria and Erysipelas;—Apply as a plaster and cover with flannel.

For Corns, Cuts and other uses;—See directions on the bottle.

Leonard Metcalf, of Easton Ill., says:—"Your Golden Ointment speaks for itself. It is the best Ointment I ever saw."

C. W. Knapp, of Riley Centre, Kan., says:—"Your Golden Ointment has no where its equal, and your medicines generally, are considered the standard remedies for our climate."

H. Wooldridge & Co., Willis, Texas, say:—"Your medicines give good satisfaction in this community."

I. B. Jessup, Bakers Corner, Ind., says:—"Your medicines sell better, here, than any other that I keep."

For coughs and colds use
Wakefield's Cough Syrup.

Durable.

A fashion report says that gentlemen's hats are provided, with a new kind of ventilator which will last much longer than the hole style. Anything that will outlast a hole must be a valuable addition to the resources of a people.

If you would improve your digestion and appetite use the Wine Bitters.

It isn't what a grasshopper will eat, but what he won't eat that is curious.

A Massachusetts man named Corkscrew has named his little baby Gimlet.

Honor tells you not to hit a man when he's down, and discretion warns you against it when he isn't down.

When a donkey throws his rider he very often sheds a muleteer.

Bristow to the Bostonians: "No people with beans like these, and brown bread, ever lost their liberty."

"Alcohol will clean silver." Yes, alcohol well stuck to will clean out all the silver you have got.

True merit will win.—This all agree to who have used the Golden Ointment.

The man who was "out on a lark" was really out on a swallow.

WAKEFIELD'S EYE SALVE.

This is a very excellent remedy for Sore, Inflamed and Weak Eyes, Sore Lips, and Proud Flesh.

Inflamed Eyes:—It should be worked well back under the lids. By adding a little soft oil, or fresh butter to it, will enable you to work it in more freely, when it will be sure to give relief.

Proud Flesh:—Bind on the Eye Salve as a plaster, and renew it twice a day.

Take Heed to This:

If you feel drowsy, debilitated, have frequent headache, mouth tastes bad, poor appetite, tongue coated, you are suffering from torpid liver, or "biliousness." Nothing will cure you so speedily and permanently as Wakefield's LIVER PILLS.

If you have pain, or heaviness in the side, or stomach, torpidity of the bowels, or sluggish circulation, use these Liver Pills in small and frequent doses.

If you have an attack of chills, or fever, begin with a dose of two or three Liver Pills.

These Pills are wholly vegetable, and safe. If they should act too strongly, on any one, let him take a dose of Blackberry Balsam.

Zerung, Coy & Co., of Hastings, Neb., say.—"Your Blackberry Balsam is all the go, here. We sell more of it than of all other diarrhea medicines."

"It is highly esteemed, here, for Summer Complaint, in children.
J. S. FRENCH, Concord, Mo."

"It has cured several cases, here, on which the doctors had failed.
A. STREHLE, Madison, Kan."

"It cured a case of bloody flux, in my family, in one day.
J. A. Welch, Attica, Ind."

Daniel P. Beebe, Union Hill, Ill., says.—"I have cured 17 cases of Cancer, within two years, and depend on your Liver Pills to cleanse the blood."

A. P. Wright, White Rock, Ill., says.—"Your Liver Pills are mild, easy of action and very effectual; and we believe they have no superior."

Expressions from Agents are frequently received, such as the following:—"I sell a dozen a week, of your Liver Pills, and the demand is on the increase."

"Your Liver Pills can't be beat, and have a good sale."

"Your Liver Pills are the best pills we have for sale."

Chips.

The Intelligent Farmer never waits for something to turn up. He takes a good plough to the ground and turns it up.

Boys are much better than they used to be. We observed one yesterday out on the back piazza singing. "There is rest for the weary," while his mother was weeding the onion bed.

All sudden attacks of disease require a dose of Liver Pills, the sooner the better.

A boys first bet—Alpha-bet.

A Washington woman has applied to be appointed a constable, despairing of ever catching a man in any other way.

For Piles use the Golden Ointment,

A cultivated ear—An ear of corn.

Paris eats a thousand horses every month. This is what we should call galloping consumption.

If your skin is yellow or your appetite poor, use the Wine Bitters.

A Michigan paper says: "Tramps out this way live on the choicest meats. Every one of them gets warm tongue at most every house."

Cough Syrup for Colds.

FOR
Eradicating
RATS
&
MICE.

BROWN'S RAT KILLER has no equal in eradicating Rats, Mice and Insects. It is sealed up in glass bottles and keeps moist and perfect. The public must be learning its value, for its sales are rapidly increasing.

For Rats:—Spread the Rat Killer on thin slices of bread and cover with brown sugar; cut in small pieces, lay a board on three or four inch blocks over it, that other animals can not get at it; put water near by. Rats like it, and it is sure death to them.

C. W. Knapp, of Riley Centre, Kan., says:—"Brown's Rat Killer slays its tens of thousands."

Preston Sanasack, of Bourbonnais Grove, Ill., says—"Your Brown's Rat Killer is the nicest thing I ever saw. Every body is asking for it, because they find it so good, and it never fails to destroy the rats."

Lamar, Mo., Jan. 1, 1878

"*Mess. C. Wakefield & Co.* Dear Sirs:—Your medicines are all very good; especially the Cough Syrup, Balsam, Pain Cure and Pills. They saved my life after one severe attack, and they have saved me many doctor bills. I have not had to call a doctor but once in four years, or since I relied on your medicines. Yours, B. TYLER."

B. S. Hunning, Earlton, Kan., says:—"Your medicines have a good sale here. I warrant every bottle, and have had none returned."

Thomas W. Reddle, of Cresco, Neb. says:—"Your Wine Bitters works like magic, in Head-ache. One bottle has cured parties that thought they could never be cured. I have taken the responsibility of warranting every bottle, and have none to refund for."

N. Stafford, of Scandia, Kan., says:—"Your Pain Cure, Golden Ointment and Nerve & Bone Liniment sell well, here, and all prove to be as good as recommended."

Weights And Measures.

The following table shows the legal number of pounds per bushel of the following articles in the States therein named:

Many of the vegetable ingredients that are scientifically compounded, in Wakefield's remedies, are daily prescribed by our most scientific physicians.

The peculiar adaptation of the Blackberry Balsam to the immediate cure of Diarrhea, and all derangement of the bowels, has rendered it immensely popular.

A mild and pleasant disposition, happiness and prosperity are dependent on good health. Before you deviate far from perfect health use the Wine Bitters.

WAKEFIELD'S WORM DESTROYER.

This is one of the nicest, and most successful remedies for Worms in Children, or Adults, now before the public. It is made in lozenge form, and the lozenges are quite pleasant for children to eat.

All unthrifty children, and especially if they have furred tongue, itching at the nose, hacking cough, flashes of fever, or bloated abdomen should use these lozenges.

They have been used with great success, for 15 years.

Legal Rates of Interest.

California—10 per cent.; by contract, any rate.

Illinois—6 per cent.; by agreement, 10 per cent.

Indiana—6 per cent.; by contract, 10 per cent.

Iowa—6 per cent.; by contract, 10 per cent.

Kansas—7 per cent.; by contract, 12 per cent.

Kentucky—6 per cent.

Michigan—7 per cent.; by agreement, 10 per cent.

Minnesota—7 per cent.; by agreement, 12 per cent.

Missouri—6 per cent.; by agreement 10 per cent.

Nebraska—10 per cent.; by contract, 12 per cent.

Nevada—10 per cent.; by contract, any rate.

Ohio—6 per cent.; by agreement, 8 per cent.

Oregon—10 per cent.; by agreement, 1 per cent. per month.

Pennsylvania—6 per cent.

Texas—8 per cent.; by agreement, any rate.

Wisconsin—7 per cent.; by agreement, 12 per cent.

Cold Feet, or any cold and inactive parts, rub well with the PAIN CURE and follow with the GOLDEN OINTMENT.

Contents of an Acre.—An acre contains 4,840 square yards. A square mile contains 640 acres.

To lay off a square acre of land, measure 209 feet for each side of the square; it contains an acre to within an inch.

Think for yourself, of the nature of your disease, and of the effect required to overcome it, then select the proper remedy.

Cramp in the limbs.—Apply freely over the affected part with the PAIN CURE, and rub rapidly to create friction

A REMEDY, of uncommon power, is found in Wakefield's Pain Cure. It is extremely penetrating, warming and stimulating. By keeping it on hand, the torture of pain in nerve and muscle, need not be endured.

Useful Information.

- Do not waste time in useless regrets over losses.

Systematize your business and keep an eye on little expenses. Small leaks sink great ships.

Never fail to take a receipt for money paid, and keep copies of your letters.

Do your business promptly, and bore not a business man with long visits.

For Nervous Headache, use Wine Bitters and bathe the feet in cold water, then rub them well just before going to bed.

To find the number of bushels in a box of grain, multiply its inside length, breadth and height together, multiply the product by 45 and divide by 56.

Public Speakers and others can use their voice continually, by often wetting the throat with Cough Syrup.

For Bilious Headache, use the Liver Pills.

The profits of farming should consist, in a large measure in the improvements of the farm itself and belongings, and there can be no better investment than this. That is very poor farming, if worthy to be called farming, which, though it may nominally show a cash balance, leaves the homestead in a worse instead of a better condition than he found it.

Those who like to prove everything by experience will be gratified by a trial of any one of Wakefield's preparations. They are all reliable.

E. S. WEAVER, of Irwin, Iowa, says—"Your PAIN CURE takes well here. I saved one life with it."

To loosen a Glass Stopper, pour around it a little sweet oil, close to the stopper, and let it stand in a warm place.

Do not indulge in delay or hesitation about taking a dose of Wakefield's sugar coated Liver Pills when you are bilious, drowsy, or have sluggish circulation.

To prevent glass chimneys from cracking, place them in a kettle of cold water, and gradually heat it until it boils, then let it cool. They will not be broken by the ordinary fluctuation of the flame.

"Worth its weight in gold." This is what is said of the Golden Ointment,

Miasma is rendered powerless by the use of the Fever Specific.

To render the Liver active and the Stomach vigorous, use the Wine Bitters.

Domestic Recipes.

—:0:—

Curing Hams & Shoulders.—Lay them on a board and sprinkle lightly with fine salt petre; let them lie two days before putting them in a tub; cover the bottom of the tub with fine salt, lay in the hams and cover them with the following: $\frac{1}{2}$ lb. salt, $\frac{1}{2}$ lb. sugar, $\frac{1}{2}$ oz. salt petre to a gallon of water. Keep them in eight weeks if large ones, six weeks if small ones, when they may be taken out and smoked.

For Dried Beef.—Use the same recipe, leaving it in the brine about three weeks.

For pain in the Stomach, use first a dose of Blackberry Balsam and alternate with Wine Bitters, or use the Pain Cure internally.

Preserving Butter.—To keep butter sweet until it is wanted for use, all that is necessary is to keep it cool and from contact with the air. To do this, place in a jar and make a brine of pure salt and water strong enough to carry an egg; cover the butter completely with it; place over all a cloth, and keep in a cool place. By this means butter can be kept all winter, and in spring is nearly equal to fresh butter, retaining the flavor perfectly.

For any pains or oppression about the Lungs, or in the Chest, use the Cough Syrup.

White Cake.—Two cups sugar; $\frac{1}{2}$ cup butter; $\frac{3}{4}$ cup sweet milk; 3 cups flour; whites of 8 eggs beaten well and stirred in last; 2 teaspoonfuls baking powder mixed in the flour; flavor to suit the taste.

To Rid your Premises of Rats:—Use Brown's Rat Killer and you will have no trouble from rats.

Sponge Cake.—1 pint sugar; 1 pint flour; 10 eggs; beat the yolks light and add the sugar; then add the whites well beaten, and stir flour in lightly, and bake in quick oven.

Unthrifty Children:—Generally, soon get in good condition, after using Wakefield's Worm Destroyer.

Butter Scotch.—1 cupful sugar; 1 cupful molasses; 1 tablespoonful water; 1 large tablespoonful butter; 1 tablespoonful vinegar.

Weak Parts, whether they be the stomach bowels, back, or limbs, should be well protected with flannel and rubbed twice a day with Golden Ointment.

Fried Cakes.—2 cups white sugar; 5 tablespoonfuls melted lard; 1 nutmeg; 2 eggs; 2 cups sour milk; heaping teaspoonful of soda; add flour and roll.

Delicious Cookies.—2 cupfuls sugar; 1 egg; 1 cup butter; 1 cup milk; 1 teaspoonful soda; and nutmeg.

Miscellaneous.

A Cheap Filter.—Any vessel with a small hole in the bottom, say a flower pot, plugged up (not tightly) at the bottom with a sponge. A layer of coarsely powdered charcoal, about one inch thick, is placed in the bottom of the pot, then a layer of sand of the same thickness, then pebbles, coarse gravel and stones are placed on the whole. This forms an admirable filter, and one within the reach of the poorest.

Destruction of Rats:—No preparation made equals Brown's Rat Killer for exterminating these pests.

Sour Stomach:—Is caused by over-loading the inactive digestive organs. Give one of Wakefield's Liver Pills at night, then follow with Wine Bitters, at meal times and eat but two-thirds of usual meals, for one week, and let the digestive organs get strong again.

Watering Horses after Meals.—A full drink of water immediately after being fed should never be allowed to horses. When water is drunk by them the bulk of it goes directly to the large intestines and little is retained in the stomach. In passing through the stomach, however, the water carries considerable quantities of the contents to where it lodges in the intestines. If then the food of the stomach is washed out before it is digested, no nourishment will be received from the food. In Edinburg, some old horses were fed with split peas, and then supplied with water immediately before being killed. It was found that the water had carried the peas from fifty to sixty feet into the intestines, where no digestion took place.

Worms:—There is no better remedy for worms, than Wakefield's Worm Destroyer.

For Burns:—Bind on Wakefield's Golden Ointment, and keep from the air.

Lemon Pie.—Take the juice, and grate the yellow portion of the rind of two lemons; two cups of sugar; the yolks of four eggs, four tablespoonfuls of flour; two cupfuls of water; cook the mixture until well thickened. Bake your pastry, then pour in the mixture; beat the whites of four eggs to a froth, add two teaspoonfuls of sugar; then spread over the top of the pies and place them in the oven until brown. The above recipe will make two pies.

Orange pie can be made by the same recipe.

For Frosted Parts and Chapped Hands:—There is no preparation equal to Wakefield's GOLDEN OINTMENT. It is also excellent in all cases where an external application is required.

For Liver Complaint:—You can find no better remedy for a torpid liver, than Wakefield's LIVER PILLS.

Things Worth Knowing.

Fruit Trees:—Pruning fruit trees may be done any time in the spring before vegetation starts. Pare the cut in large limbs smoothly, and cover with grafting wax to exclude the air.

Nature has provided a place for pruning trees. Cut the limb off close to the outside wrinkle on the limb, near the trunk of the tree. The wrinkle will expand and close over the cut.

Examine your trees that are not properly pruned, and see how nature is trying to heal the wound, but is prevented by a stub of the limb. Cut the stub off and it will soon heal over.

Destroy the Rats:—25 cents invested in Browen's Rat Killer will save many dollars, in grain and provisions, from being destroyed by these repulsive pests.

Bleeding:—The best thing to stop bleeding of a moderate cut, instantly, is to cover it profusely with cobwebs, or flour and salt, half and half.

Be Wise in time and use Wakefield's Cough Syrup, before your cough is too deeply seated on the lungs.

To Pickle Beef for Long Keeping.—First, thoroughly rub salt into it and let it remain 24 hours to draw off the blood. Second, take it up, let it drain, and pack as desired. Third, have ready a pickle prepared as follows: For 100 pounds of beef use 7 pounds of salt; salt-peter and cayenne of each one ounce; molasses one quart; and soft water eight gallons; boil and skim well, and when cold pour it over the beef.

Worms in Children, or Adults:—Use Wakefield's Worm Destroyer. It is made in lozenge form, and not unpleasant to eat. For stubborn cases, in adults, give 20 drops of spirits turpentine, on sugar, to stir up their nests, then follow with the Worm Destroyer.

It is estimated that about 9 per cent of the inhabitants of the United States can not read and write; Great Britain 24 per cent; Germany scarcely one per cent.

Ginger Cookies.—1 pint molasses; $\frac{3}{4}$ cup hot water; 1 tablespoonful ginger; 1 egg; 1 teaspoonful soda; 1 teacup butter. Use New Orleans molasses.

For Boils and Eruptions:—Take two Liver Pills, twice a week, and Wine Bitters before each meal.

Poisons.—A convenient emetic for poison and convulsions in the Stomach. Take one large tablespoonful of Ground Mustard, and the same of salt, mix hastily with a cup of water and swallow.

For St. Vitus Dance.—Give two teaspoonfuls of White Mustard Seed, (not ground) three times a day.
